

NEW PRODUCT PICKS

PF46151

Fuel Element

NEW RELEASE

Small and medium sized tractors and loaders, used for lawn and garden and construction sites, need clean fuel, just as much as big equipment users. The Baldwin PF46151 is designed to be robust and capable of removing small contaminants that might be in your fuel. The PF46151 offers high efficiency removal and separation along with OE equivalent dirt-holding capacity, so you can be sure your equipment is protected throughout service intervals.
